EXPERTS IN RENEWABLE ENERGY SOLUTIONS

Waxman Group

With over 50 years in the distribution industry, the Waxman Group began as a synthetic fibre distributor, rising to become one of the leading global suppliers of flame retardant fibres primarily used in protective clothing.

Since then we have diversified into other worldwide markets, with the Waxman Group now consisting of nice companies within three key divisions; Fibres, Ceramics and Renewable Energy.

Who We Are

Award-winning experts in renewable energy solutions, Waxman Energy are one of the UK's largest distributors of renewable energy products. Offering a one-stop-shop for installers, we provide everything needed for both residential and commercial solar installations.

Our extensive technical knowledge and unparalleled customer service is what sets us apart from the competition and we work hard to build and maintain lasting relationships with all of our customers and suppliers.

Thanks to our 40,000 sq ft of warehousing space located on site, the vast majority of our products are available for next day delivery, with after-sales support provided as standard. No matter how big or small the project, you can trust Waxman's to offer a complete package for your next solar installation.

Waxman Energy, your partners in

Solar PV Modules

Our range of only the highest quality poly and mono PV modules are suitable for almost any residential or commercial project, ensuring a sound investment for both you and your customers. By choice, we only work with trusted module manufacturers with a firm standing in the industry.

Battery Storage

Working hand in hand with our range of PV modules, we have a commitment to providing only the most reliable battery storage solutions on the market today for both residential and commercial projects.

Inverters

We have a wide range of solar PV inverters and monitoring systems, enabling us to match any module type and power class. From our carefully selected partners we offer a portfolio of high performance, reliable and quality products from industry leading brands across the world.

EV Chargers

To cater for the vast demand of electric vehicles throughout the UK and Ireland, we offer a comprehensive range of electric vehicle chargers for both residential and commercial projects.

Mounting Solutions

We provide quality and flexible mounting systems for on-roof, in-roof, flat roof and ground mounted solar PV installations. Working with our carefully selected partners, we can offer solutions for almost any kind of roof covering providing economic and safe results for any roof size.

Installer Training

Our purpose-built training centre and Zoom webinar series' give installers an opportunity to adapt to the ever-changing solar industry. Held regularly, training covers a wide range of areas including solar, storage, EV, mounting systems and commercial funding.
